Project «www.rollstuhlparkplatz.ch»

Starting point

- Overall 10'000 parking spaces for disabled people in Switzerland, but with incomplete specification or location

- For those concerned, the situation is not satisfactory

- No other similar existing projects

Project goals

- Creation of a high-quality and complete dataset on the parking spaces for disabled people

- Data accessible on an interactive map with high-quality cartographic base

- Internet platform open to the public

- Also for GPS and mobile phones

- Social mapping platform to correct deficiencies

# Decentralized initial measurement through IGS offices and partners

Motivation

- A good idea

- Project beneficial for our profession: „Only we are able to collect complete datasets on a short time level"

- At the same time, promotion of our partners (existing datasets, cartography,..)
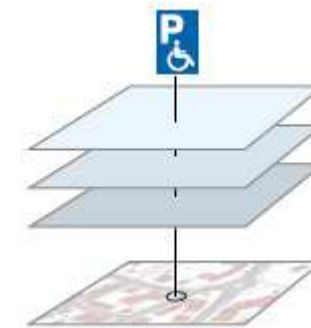

Project organization

Finance

- **Federal Bureau for Equality of People with Disabilities FBED**
- **IGS capacities for the initial measurement**
- **Cadastral Webmap**

Results

Erfassungsstatistik

Entwicklung Datenübermittlung rollstuhlparkplatz.ch, Stand: 05.10.2012

- Erfasste Parkplätze kumuliert
- Erfasste Parkplätze pro Datum

Association for disabled people

MEDIENINFORMATION

Neue Webanwendung für Querschnittgelähmte

Schneller ans Ziel dank «ParaMap»!

Nottwil, 30. März - Die neu entwickelte Webanwendung «ParaMap» ist für Rollstuhlfahrer eine hilfreiche Unterstützung in Alltagsfragen: Wo ist der nächste Rollstuhlparkplatz? Wo hat es ein rollstuhlgängiges Hotelzimmer? Dank «ParaMap» kann man dies nun bequem auch unterwegs per Smartphone herausfinden. Und nebst Parkplätzen und Hotelzimmern sollen bald weitere Kategorien folgen. Startschuss ist an der Rollivision vom 31. März.
